### Today's Agenda 今日议程

This workshop is aimed at presenting the first results of the IC2PerMed Project to all Chinese stakeholders interested in mapping the policies and the programmes on Personalized Medicine (PM) in China and Europe. It will provide to participants a clear understanding of the project aims, of the work done so far on the "Mapping of PM policies and programmes in China and Europe" and of the activities in which a broad group of invited experts are called to join forces with the Consortium Partners, in order to foster EU-China collaboration in PM. Advice, expectation, time frame and terms of collaboration will be widely discussed during this event. 此次研讨会的目的是向对于中国和欧洲的个性化医疗(PM)政策和计划梳理感兴趣的所有中国利益相关者展示IC2PerMed项目的初步成果。它将使与会人员对项目目标、迄今为止在"中国和欧洲的个性化医疗政策和计划梳理"方面所做的工作以及需要广泛邀请的专家与联盟合作伙伴共同参与的活动有清晰的了解,以促进中欧在个性化医疗方面的合作。在此次活动中,将广泛讨论建议、期望、时间表和合作条款。

## Description of the action 行动说明

IC2Permed is a **Coordination and Support Action (CSA)**project, funded from the European Commission in
support of the ICPerMed network.
IC2Permed是一个协调与支持行动(CSA)项目,由欧
盟委员会出资以支持ICPerMed网络。

CSAs consist primarily in accompanying measures such as standardisation, dissemination,

awareness-raising and communication, networking, coordination or support services, policy dialogues and mutual learning exercises and studies, including design studies for new infrastructure and may also include complementary activities of strategic planning, networking and coordination between programmes in different countries.

CSA主要包括伴随措施,例如标准化、传播、提高认识和沟通、联网、协调或支持服务、政策对话以及相互学习练习和研究,包括对新基础架构的设计研究,还可能包括不同国家的计划之间的战略规划、联网和协调的补充活动。

# The Vision of the Project 项目愿景

China collaboration for the development of Personalized Medicine
research and innovations through the ICPerMed initiative (that
involves 40 partners from 31 Countries), enabling populations to access
personalised, smart and inclusive healthcare solutions in the near
future

**Integrating China in the International Consortium** for Personalised Medicine: Kick-off meeting of new **ICPerMed-related project** 

16 December 2019 - IC2PerMed, a new ICPerMed-related coordination and support action, will hold its kick-off meeting on February 17-19, 2020 in Rome, Italy

IC2PerMed aims at providing key solutions for enabling the convergence of European and Chinese stakeholders under ICPerMed, towards a common approach of personalised medicine research innovation, development and implementation. The project wants to achieve this by:

- 1. mapping policies, programmes, standards and initiatives related to personalised medicine in Europe and in China for identifying the opportunities for research collaborations;
- 2. structuring its developments upon an ecosystem of European and Chinese experts, collaborating in working groups centred on ICPerMed Action plan priorities;
- setting bridges with key organisms involved in the definition and implementation of personalised medicine and healthcare systems in both economic areas, both on benefits for coordinated approaches for research and on concrete developments taking place within and along the project;
- 4. inserting its developments in international contexts, through ICPerMed and its involvement in
